PROFESSIONAL SUMMARY

Full Stack Developer and Python enthusiast with hands-on experience building scalable web applications using ASP.NET Core, React.js, and SQL Server, alongside in machine learning and AI-integrated application development. Proficient in Python and its data science ecosystem including NumPy, Pandas, Scikit-learn, and Matplotlib. Skilled in developing RESTful APIs and implementing role-based access control. Passionate about writing clean, maintainable code and applying artificial intelligence to solve real-world problems.

TECHNICAL SKILLS

Programming Languages: Python, C#, JavaScript, HTML, CSS

AI/ML Libraries: Scikit-learn, NumPy, Pandas, Matplotlib

AI/LLM Integration: Groq API, Generative AI, Prompt Engineerin

Python Frameworks & Tools: Django, Flask, Tkinter, Jupyter Notebook, speech_recognition, pyttsx3

Web Frameworks & Libraries: ASP.NET Core Web API, React.js, Angular,Django

Databases: SQL Server, MySQL, PostgreSQL

Tools & Technologies: REST APIs, JWT Authentication, Swagger, Postman, Visual Studio, VS Code, GitHub

Concepts: Machine Learning, Supervised Learning, RBAC, Dependency Injection, OOP, MVC, CRUD

Operating System: Windows

EXPERIENCE

Knovos India Pvt. Ltd.

Jan 2026 – Apr 2026

.NET Developer Intern

Gandhinagar, India

- Developed a production-grade Web-Based Collaboration Portal using ASP.NET Core, React.js, and SQL Server, implementing folder management, document handling, and REST API integration.
- Implemented role-based access control (RBAC) and JWT authentication to enforce data security and access policies across user roles.
- Built an activity logging system with React-based dashboards featuring filtering and pagination, integrated with REST APIs for real-time action tracking.
- Wrote and optimized SQL Server queries for document retrieval, version tracking, and user activity reporting.

TatvaSoft

Mar 2025 – Apr 2025

Angular and .NET Developer Trainee

Ahmedabad, India

- Gained hands-on training in .NET Core backend development and Angular frontend, building CRUD applications and understanding component-based architecture.

Prodigy Info Tech

May 2025 – Jun 2025

Web Development Intern

Remote

- Designed and developed responsive web pages using HTML, CSS, and JavaScript, improving UI consistency and cross-device compatibility.

CERTIFICATIONS

Python for Data Science – NPTEL

Supervised Machine Learning: Regression and Classification – Coursera (Stanford University / DeepLearning.AI)

GenAI Powered Data Analytics – Forage

Career Edge – TCS iON

PROJECTS

- Web-Based Collaboration Portal | *ASP.NET Core, React.js, SQL Server, JWT*** 2026
- Built a full-stack secure document and folder management portal with REST API integration, RBAC, document versioning, and a responsive React.js frontend.
 - Developed audit dashboards with filtering and pagination for real-time visibility into all user actions and system events.
- Mental Health Analyzer | *Python, React.js, Node.js, MongoDB, Groq API*** 2026
- Built a full-stack AI-powered mental health platform using React.js frontend, Node.js/Express backend, and MongoDB, with an LLM chatbot via Groq API for real-time support.
 - Implemented sentiment-based mood tracking to detect stress levels and trigger context-aware SOS alerts, coping suggestions, and interactive wellness activities.
- Stock Predictor Application | *Python, Django, Scikit-learn, Pandas, NumPy, Matplotlib*** 2025
- Developed a supervised ML stock price prediction system using Scikit-learn with data preprocessing and feature engineering via Pandas and NumPy.
 - Integrated Polygon real-time market API for live data and deployed predictions through a Django web interface with Matplotlib-based trend visualizations.
- Personal Voice Assistant | *Python, speech_recognition, pyttsx3, pywhatkit*** 2024
- Built a Python voice assistant with natural language command processing, supporting YouTube playback, Wikipedia search, joke generation, and real-time clock updates.
- To-Do List GUI Application | *Python, Tkinter*** 2025
- Created a desktop task manager in Python and Tkinter with full CRUD operations, a live task counter, and a clean responsive GUI layout.
- ReactiveNews App | *React.js, NewsAPI*** 2025
- Built a React.js news aggregator with category filtering, infinite scrolling, and API state management using React Hooks for a smooth user experience.
- TextUtils Web App | *React.js*** 2025
- Developed a React.js text utility with case conversion, word/character count, clipboard copy, and a fully responsive design.

EDUCATION

- LDRP Institute of Technology and Research** Gandhinagar, Gujarat
Bachelor of Engineering in Computer Engineering Sep 2023 – Jul 2026
- Relevant Courses: Artificial Intelligence, Database Management Systems, Operating Systems, Software Engineering, Data Structures and Algorithms, Computer Networks
- The Maharaja Sayajirao University of Baroda** Vadodara, Gujarat
Diploma in Computer Engineering Mar 2020 – Jul 2023
- Relevant Courses: Data Structures, Network Security, Web Development, Object-Oriented Programming
